SUMMARY

Computer Science undergraduate with internship experience and hands-on experience building full-stack web applications using **Node.js**, **Express.js**, **React.js**, and **MongoDB**. Strong foundation in **Data Structures & Algorithms**, **OOP**, **DBMS**, **Operating Systems**, and **REST API Development**. Experienced in developing authentication systems, database-driven applications, API integrations, and AI-powered features. Interested in backend and full-stack engineering with a focus on building reliable and scalable software applications.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C++
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Frontend: React.js, Tailwind CSS, HTML5, CSS3
Databases: MongoDB, PostgreSQL
Core Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks, API Design, SDLC
Tools & DevOps: Git, GitHub, Linux, Postman, Docker, Render, Vercel
AI Tools: Gemini API, ChatGPT, GitHub Copilot

EXPERIENCE

Software Engineer Intern – Innova Solutions May 2025 – March 2026

- Completed structured training in **Salesforce Administration and Apex development** under the guidance of a senior Salesforce developer.
- Gained hands-on practice with **Apex Triggers, SOQL, SOSL, Batch Apex, Queueable Apex, Future Methods, and Platform Events** through training exercises and assigned tasks.
- Completed basic assigned tasks involving **Apex programming, Salesforce configuration, data handling, and automation**.
- Learned and practiced **Salesforce security concepts**, including profiles, roles, permissions, sharing rules, and field-level security.

PROJECTS

Lurnix – AI Powered Learning Management System GitHub
Node.js, Express.js, React.js, MongoDB, Gemini API

- Built a full-stack **Learning Management System (LMS)** enabling educators to create and sell courses while students purchase and access learning content.
- Developed secure **REST APIs** with authentication, protected routes, and role-based authorization.
- Integrated AI-powered features including an **AI Quiz Generator** and **Resume Analyzer** using the **Gemini API**.
- Built community discussion modules enabling students and educators to share questions, comments, and learning resources.
- Implemented course enrollment and payment workflows using the **Stripe Payment Gateway**.
- Designed backend services using **Node.js, Express.js, and MongoDB** and deployed the application using cloud platforms.
